🌐 My-Portfolio

### My Objective

Highly motivated front-end developer with a passion for the MERN stack, eager to leverage creativity and problem-solving skills to craft user-centric interfaces and contribute to the development of robust web applications using modern JavaScript technologies.

### Education

- **BTECH IN CSE (NKOCET, SOLAPUR)** Jan 2021 — Pursuing  
CGPA-8.6 (Upto 6<sup>th</sup> Sem)  
Currently studying in 8<sup>th</sup>
- **12<sup>th</sup> (SES JUNIOR COLLEGE, SOLAPUR)** Jun 2019 — Feb 2020  
Percentage – 65%
- **10<sup>th</sup> (INDIAN MODEL SCHOOL, SOLAPUR)** Jun 2017 — Mar 2018  
Percentage – 90%

### Work Experience

- **AFAME TECHNOLOGIES (BENGALURU)** Mar 2024 — April 2024  
Web Developer Internship (Remote)

### Projects

- **MERN Stack To-Do List App**
  - Technologies: *MongoDB, Express.js, React, Node.js, SCSS, JWT, CORS.*
  - Features: Manages tasks with functionalities to add, edit, and delete tasks, implements CRUD operations, includes user authentication to secure data with authentication and authorization mechanisms, and ensures the application is responsive across various devices and screen sizes.
- **Text Editor App**
  - Technologies: *React.JS, React Router, Javascript, Bootstrap.*
  - Features: Includes text transformation to convert text to uppercase or lowercase, word count to display the number of words and characters, theme switching to toggle between light and dark modes, and a preview tab to view a live preview of the formatted text.
- **News App**
  - Technologies: *React.JS, React Router, Javascript, Bootstrap.*
  - Features: Fetches and displays the latest news articles dynamically using Fetch API, provides seamless navigation with React Router, includes a top loader that displays a loading bar while fetching news, and features a responsive design optimized for both desktop and mobile devices. Note: Github repo link provided due to API limitations.

- **Expense Tracker (CRUD App)**
  - **Technologies:** *React.JS, Javascript, CSS*
  - **Features:** Integrates local storage to store and retrieve user data persistently, uses custom React hooks for efficient data filtering and management, provides error messaging for input errors and invalid actions, and offers a user-friendly context menu for easy access to CRUD operations.

**Skills**

Languages	Libraries and Frameworks	Database	Version Control	Tools
HTML,	React.JS,	My SQL,	Git,	Vite,
CSS,	Bootstrap,	MongoDb	Github	Express.JS,
Javascript,	Tailwind CSS,			Vercel,
Node.JS	Framer Motion			Netlify

**Courses & Certificates**

Python Basics	My SQL Basics	Javascript	React JS
Great Learning	Great Learning	Simplilearn	Great Learning

**Languages**

- English
- Hindi
- Marathi
